FFV Instrument Cluster Remanufacturing Program

JASPER Instrument Clusters come with a one year warranty!

Tired of waiting for FFV instrument clusters from the dealer?

Frustrated by multiple failures on the same vehicles?

Try a Jasper Innovative Solutions remanufactured instrument cluster. With a one year warranty, lower prices than OEM, a **modified board to prevent future failures**, and immediate availability, there is no comparison!

Our Remanufacturing Process Includes:

- Use of anti-static precautions when handling exposed boards
- Inspection of unit for burnt circuitry
- Connection of cluster to test fixture for troubleshooting and inspecting unit functions
- Inspection for inoperable gauges and other common failures
- Cleaning of lens and display areas
- **Broken, scratched or cloudy lenses replaced with new lenses at no additional cost.**
- Unlike the OEM cluster, we modify the existing board to prevent future voltage spikes and other failures

Program Options

1. Custom Remanufacture - Send your inoperable instrument cluster to us for remanufacturing. Turnaround time varies from 5 to 10 business days. No core charge.
2. Core Exchange – Submit data to JIS with mileage and a cluster will be shipped from stock immediately by requested method to your VMF. Core charge of \$500 will apply.

Part Number	Application	NOA Price
XC2Z10849GA	2000 FORD FFV	\$249.75
1C2Z10849BA	2001 FORD FFV	\$249.75
