# California Certified Catalytic Converter

## JIS Part Numbers

25104939CA  
25143990CA

## Application

2.5L LLV  
2.2L LLV

Jasper Innovative Solutions now provides a catalytic converter for the LLV which meets the current California Certification Requirements that have been in effect since January 1, 2009.

As of this date, replacement catalytic converters are required to meet these specifications:

The body should be clearly labeled with the following:

- A.R.B.- EO Number (example: D-562-12)
- Part Number (example: 23000)
- Date Code (example: 03-23-09)
- Directional Flow Arrow
- 1/2" Tall Numbers
- Must be Visible from 5 Feet Away

Law Takes Effect: January 1, 2009

Law Code: California Vehicle Code Section 27156 and 38391

Who the New Laws Affect: Manufacturers, installers and resellers of new aftermarket catalytic converters

Specifically the converter meets the CARB requirements for MDV2 120K LEV Standards:

NMOG Max	CO Max	NOx Max
.230	6.4	.6
